- Elements
- Ambulance Driving Techniques
- Accident Avoidance and Crash Procedures
- Basic Life Support
- Disaster Management Protocols

##### **Emergency Medical Technician – Basic**

- In-Depth Anatomy and Physiology
- Primary Care Theory
- Trauma Care Theory
- IV Administration and Theory
- Nasopharyngeal Suctioning
- D50W Administration Theory
- Pharmacology
- Cardiac Monitoring
- Oxygen Delivery Theory and Practical
- Patient Assessments
- Communications
- Transportation
- Ambulance Operations
- Trauma
- CPR
- AED
- Clinical Hospital Practice
- Ambulance Practice
- Basic Life Support
- Disaster Management Protocols

##### **Emergency Medical Technician – Advanced**

- In-Depth Anatomy and Physiology
- Primary Care Theory
- Trauma Care Theory

- IV Administration and Theory
- Nasopharyngeal Suctioning
- D50W Administration Theory
- Pharmacology
- Cardiac Monitoring
- Oxygen Delivery Theory and Practical
- Patient Assessments
- Communications
- Transportation
- Ambulance Operations
- Trauma
- CPR
- AED
- Clinical Hospital Practice
- Ambulance Practice
- Advanced Trauma Management
- Advanced Cardiac Life Support
- Pediatric Life Support
- Medical Management
- Core Issues

### **Communication Officer**

- Priority Dispatch System.
- Telecommunication Essentials.
- Protocol Instruction and Practice.
- Roles of the Communication Officer
- Operations.
- Legal Issues
- Dispatch Stress
- Quality Improvement

### **Dispatch Officer**

- The science of prioritized dispatch
- Ethical and Medical-Legal issues
- Dispatch Life Support
- Dispatch Protocols
- Practice drills

### **Ambulance Control Officer**

- The science of prioritized dispatch
- Ethical and Medical-Legal issues
- Dispatch Life Support
- Dispatch Protocols

- Practice drills
- GIS /GPS Navigation
- Vehicle Tracking
- Telecommunications
- Disaster Management
- Fleet Management
- Emergency Medical Technician Issues
- Communication Skills

### **Online Medical Control**

- The science of prioritized dispatch
- Ethical and Medical-Legal issues
- Dispatch Life Support
- Dispatch Protocols
- Full Emergency Medicine Curriculum

### **Supervisors**

- Administrative Issues
- Curriculum of the respective supervisory role

## **Hospital Personnel**

### **Emergency Physicians**

- Core Emergency Medicine
- Basic Life Support
- Advanced Cardiac Life Support
- Advanced Trauma Management
- Airway Management
- Pediatric Management
- Disaster Management
- Communication Skills

### **Emergency Nurses**

- Core Emergency Nursing
- Basic Life Support
- Advanced Cardiac Life Support
- Advanced Trauma Management

- Airway Management
- Pediatric Management
- Disaster Management
- Communication Skills

### **Administrative Staff**

- Emergency Medical Services
- Emergency Department
- Administrative Issues
- Staff Management
- Financial Planning
-
