

Tender For Inviting Agencies for Mapping of Urban Areas in Bihar for facilitating Urban Health Planning.

Project Description - State Health Society Bihar is implementing National Rural Health Mission (NRHM) to carry out necessary architectural correction in the basic health care delivery system. Though this Mission focuses primarily on rural population, it acknowledges the condition of urban slums where proper interventions are equally important. However to focus solely on urban health, Govt. of India is planning to initiate National Urban Health Mission in near future. As a preparation for Urban Mission, the Department of Health intends to map all the urban slums and service providers in and around those slums.

Tender is invited from interested Agencies/Institutions/Organization for Mapping the urban areas of Bihar showing the slum settlement and medical facilities (both Govt. and Private).

Project Objective:

To map urban areas of Bihar to enable proper planning for upcoming National Urban Health Mission.

Project Scope:

- The agency will map all the major cities/towns/urban agglomerations of Bihar with special emphasis on slum settlements and health facilities in each slum.
- The agency will then subdivide the urban area into units of 50,000 populations and provide an A3 size map of the same showing the slum.
- The agency shall also map all the health service providers especially service providers within and around the slums. This is to be done with an intention to identify likely referral services available.
- The map need not be an actual survey map in the sense that topographical survey used for Geotechnical purposes is not required, because the aim is only to facilitate health planning in urban area.
- The final maps should be certified by the project lead and should be shared with the Civil Surgeon of the district concerned before submission to SHSB.
- The State Health Society Bihar (SHSB) reserves the right to distribute the districts among the bidders.
